

zbe::Collisioner

```
classDiagram
    zbe::Collisionable ..|> zbe::Collisioner
    zbe::Collisionador ..|> zbe::Collisioner
```

The diagram shows a class hierarchy. At the top is a box labeled 'zbe::Collisioner'. Below it are two boxes: 'zbe::Collisionable' on the left and 'zbe::Collisionador' on the right. A dotted line connects the two bottom boxes, with a solid arrowhead pointing upwards to the 'zbe::Collisioner' box, indicating that both 'zbe::Collisionable' and 'zbe::Collisionador' inherit from 'zbe::Collisioner'.

zbe::Collisionable
